# TEXA TXT MULTIHUB - Multi-Market Interface

## Innovation to Multi-Market Diagnostics

Official Distributors for

# TXT MULTIHUB - Multi-Market Diagnostics

Car & Supercar

Truck, Bus, Trailer

Bike, Quad, Scooter

## Overview

A unique tool, for all the environments

TXT MULTIHUB is the only diagnostic tool capable of intervening on cars, heavy-duty vehicles, motorcycles, boats, agricultural and construction vehicles. At all times it guarantees unparalleled performance to complete operations the best way possible, with maximum customer satisfaction.

TXT MULTIHUB is equipped with a practical backlit display that gives it great usability and the possibility to view the information based on three types of messages:

- \* Communication mode with the display unit
- \* Charging voltage of the battery in the vehicle it is connected to
- \* Operating status - Standard, DoIP Wi-Fi, DoIP Ethernet, Pass-Thru

TXT MULTIHUB is ready to operate in any configuration, even passing from a standard diagnosis to Pass-Thru in a completely automatic way. It is compliant with the SAE J2534-1 and SAE J2534-2 regulations, therefore it can connect to a vehicle and provide direct access to maintenance and diagnostic data made available by the vehicle manufactures and essential functions, for example, to update the software in one or more control units.
